**Subject:** Follow Up

Hi Moira

I touched base with the team yesterday to see status of the request on the development of a budget submission to provide funding to a local program/service to support health, safety and justice services for sex-workers, and people seeking to safely transition out of sex-work in Melton City.. I have been advised we have contacted local women’s health and social support services, and we are awaiting some feedback on what level of funding may be useful to fill any service gaps and improve local access to these services and supports. We will have further information and will send through a recommendation early next week.

Hope that’s ok just wanted to make sure you knew we were still following up.
